

## **E-Commerce**

### **Problem Statement:-**

Ecommerce offers businesses a whole range of opportunities, from increasing your products capacities to generating more sales. With an optimized and well-developed website, you can not only achieve these goals but also offer your customers convenient around-the-clock service that can boost your business. Design your very own version of an E-commerce site.

Pages to be designed:

1. Landing page.
2. Item page.
3. Shopping cart page.
4. Payment gateway page.
5. Track order page.
